

Government of Nepal
Ministry of Science, Technology and Environment
Department of Hydrology and Meteorology (DHM)
Building Resilience to Climate-Related Hazards (BRCH) Project, Nepal.
(Pilot Program for Climate Resilience - PPCR) Project ID No. P127508
FBS (Fixed Budget System) Contract Award Notice
Detailed Design of the DHM Systems, Procurement and Implementation Support
(Contract ID, No: PPCR/DHM/S/FBS-11)

Scope of Contract:	<p>The Scope of work of the Consultant will consist of two Phases.</p> <p>Phase I covers the detailed technical design and preparation for project implementation and involves activities, including the development of sets of detailed technical documents on composition and contents of project activities to elaborate the Procurement and Implementation Plans and preparation of first priority bid documents. This phase should be completed within 6 months after signing of the contract.</p> <p>Phase II involves the procurement and implementation support, monitoring of the execution of the Project Implementation Plan and defined activities. The Consultant will also support DHM in implementation of activities, which would improve the Project performance. Consultant may propose additional activities, aimed at effective execution of all BRCH activities.</p> <p>It is expected that the Consultant will continue to provide assistance to DHM until full completion of all of the activities specified in the Project. Within a month, after the contract signing, the Consultant will prepare a detailed Project Work Schedule, listing the tasks and relevant schedule of task performance information. This Schedule should be included in the Introductory Report.</p>	Minimum Qualifying Technical Score:	70
